

Qualified *AcceleraPCI*™ CPUs

The processor (or CPU) used on the *AcceleraPCI* must be an Intel® Celeron™ 370-pin PPGA chip. Below you will find a list of Intel's part numbers for CPUs that have been qualified for use with the *AcceleraPCI*.

Please consult the Configuration Reference Manual included in the *AcceleraPCI* product package for processor installation instructions. For additional processor information, please contact Intel.

Intel Celeron Processor - boxed version including 370-pin PPGA chip & cooling solution	
Speed	Manufacturer Part Number
300 MHz	BX80524P300128
333	BX80524P333128
366	BX80524P366128
400	BX80524P400128
433	BX80524P433128

Intel Celeron Processor - 370-pin PPGA chip only	
Speed	Manufacturer Part Number
300 MHz	FV80524RX300128
333	FV80524RX333128
366	FV80524RX366128
400	FV80524RX400128
433	FV80524RX433128
